**OUR SPECIALISED STAFF STRIVE TO BE
THE **MOST TRUSTED AND RELIABLE**
PUMP SERVICE AND MAINTENANCE
COMPANY IN THE INDUSTRY**

”

SERVICE & MAINTENANCE

CLS Pump Services technicians have over 20 years experience in providing high quality, specialised service that maintains their customers waste water pump needs.

Our mobile service provides onsite servicing & maintenance to ensure there is no disruption to your business.

Our technicians consistently identify ways to maximise your pump's performance during every service and repair. We focus on all areas of your pump systems ensuring every Mechanical and Electrical component is operating correctly as well as carry out any repairs if required. We aim to increase the longevity of your pump systems while reducing the chance of costly emergency breakdowns.

Our service vehicles are equipped to service and repair all types of pump systems, as well as facilitate Confined Space Entries ensuring submersible pumps are serviced and repaired in accordance with all WHS Requirements.
